

Environmental Test Systems

CTS Nederland B.V.

The specialist in high-quality Climate Simulation Equipment.

We have a vacancy for an **assembly employee**
(Full time)

Are you looking for a challenge at a small but professional and dynamic company,
then this job suits you perfectly!

- You preferably have a diploma in electrical engineering / installation technology / construction at VMBO / MBO level.
- You have good communication skills.
- You are flexible, solution-oriented, enthusiastic and eager to learn.

We offer:

- a good salary with excellent terms of employment.
- Plenty of room for self-development.
- Growth opportunities.
- A friendly, small and close-knit team.

At CTS Nederland in Tiel you will be involved in all kinds of mounting aspects of climate test equipment. It varies from preparing components to finally building and testing the installations.
